Education

Army Institute of Technology

Bachelor of Engineering in Computer Engineering

2022 - 2026

8.09 CGPA

Kendriya Vidyalaya No. 1 Udhampur, J&K

High School(XII)

2019-2021

84.5 %

Work Experience

Spense Reliable Fintech Private Limited

Java Developer Intern

Feb 2025 - March 2025

Bengaluru, Karnataka, India

- * Built and optimized RESTful APIs using Spring Boot, improving response time from **450ms to 340ms**. for a fintech platform. .
- * Improved backend reliability for the Aditya Birla project by writing 50+ JUnit 5 tests, reaching 98% test coverage.
- * Automated PennyDrop validation with a bulk CSV upload system, saving 10+ hours/week in manual processing.

Hanshills & Co.

FrontEnd Web Developer Intern

Aug 2024 - Sept 2024

Delhi, India

- Developed responsive, client-specific websites using modern front-end technologies to enhance user experience.
- Collaborated with clients to gather specifications and deliver user-friendly, modern UI designs.
- Ensured cross-browser compatibility and mobile responsiveness, improving user experience across devices.

Stumato-Dining App

Project Management Intern

Sept 2022 – May 2023

Pune, Maharashtra, India

- Developed and launched a dining app on the Amazon Play Store for 800+ students, enabling meal orders and generating 34K+ revenue in 3 months after 6+ successful pilots at AIT.
- Recommended by a General for rollout at CME Pune. Integrated Razorpay/Stripe for secure payments and automated billing, reducing manual effort by 40% and payment errors to 2%.

Projects

Hotel Microservices[API Gateway,Service Registry,Rate-limiting]

Sept 2024

- Built modular microservices with Spring Boot, improving deployment by 25%.Deployed API Gateway with Oka and rate limiting, cutting unauthorized access by 90%.Tuned Feign Clients/RestTemplate, reducing latency by 30% for 5K+ users.
- Configured Eureka for service discovery and load balancing, ensuring 99.9% uptime.

Radar Detection and Tracking System [SpringBoot,RestAPI,Mysql]

Nov 2024

- Built real-time defense tracking system with Spring Boot for drones, aircraft, and naval units, achieving 80% prediction accuracy.
- Boosted tracking efficiency by 25% using Segment Trees/BSTs; ensured 99.9% reliability with load balancing and fault tolerance.

Defense Supply Chain System[Spring Boot, RestAPI]

Jan 2025

- Developed web-based logistics system using Dijkstra's/Bellman-Ford, reaching 85% route optimization accuracy.
- Added threat-aware pathfinding, reducing delays by 20% and ensuring 100% safe routing. Modeled military networks with weighted graphs for real-time path recalculation across 50+ missions.

Achievements & Leadership

- **President, Computer Department Council**- Led technical initiatives, mentorship programs, and innovation-driven events.
- **Secretary, Google Developer Student Clubs (GDSC)**-Organized workshops, hackathons, tech talks, and meetups.
- **Team Lead, Border Communication App**-Built bilingual translation app for Indian Army Southern Command with GDSC Android Team.
- **Team Lead, E-Gaurd App**-Built a bilingual student gate in-out tracking system.
- **Competitive Programming** – Solved 1000+ problems across platforms: [LeetCode\(350+ Qs\)](#), [CodeForces\(Pupil-1200\)](#) and [HackerRank\(6-Star Coder\)](#).
- **Mastercard Hackathon 2025**– Selected from 1000+ students; built a hospital check-up and patient advisory system.
- **National-Level Student** – Represented in basketball and football; led school team to 8+ interSchool victories.

Technical Skills

Languages:Java, SQL, C++, JavaScript

Frameworks: React, SpringBoot, Svelte, Bootstrap, Hibernate

Frontend: React, TailwindCSS, HTML, CSS, Bootstrap

Developer Tools: Postman,VS Code,Git, GitHub

Technical Skills:Data Structures and Algorithms, Object-Oriented Programming (OOP), Database Management Systems (DBMS), Operating Systems (OS), Computer Networks,Software Engineering, Full-Stack Web Development.
